Notes Before Starting

This assignment requires you to review a project that you have managed

If you have not completed this task, you cannot start assignment 4

If your project went spectacularly wrong, you will still have lots to talk about in this assignment

This is a review of your project

For each section you need to identify strengths and weaknesses of your management of the project

You will need to draw on evidence generated during the project as much as possible

D.P8 Review The Methodology

What methodology did you select?

Was this the correct one and why?

Would you have chosen a different one and why?

Resources and Information	
Have I done This?	
Am I confident on This?

D.D4 – Demonstrate good understanding of the project and effective application of project management skills

Here you will need:

A full technical summary of the project. You will need to clearly state why the project existed and why the selected technical solution was correct.

A full explanation of the methodology selected, and comparing with the other methodologies available, why this methodology was the correct one for this project.

Resources and Information	
Have I done This?	
Am I confident on This?
